

# AKHIL M

## MERN STACK DEVELOPER

React.js | Node.js | MongoDB | Express.js | REST APIs

Kollam, Kerala | +91 8943365582 | akhilbharanikkavu@gmail.com | github.com/BuiltbyAkhil | linkedin.com/in/akhil-m | akhil-portfolio-website.netlify.app

## SUMMARY

Full-stack developer with hands-on experience building scalable MERN stack applications. Skilled in REST API design, JWT authentication, component-based React UI development, and MongoDB schema design. Delivered 5+ projects including AI-integrated platforms and payment systems. Strong grasp of version control with Git and responsive design principles. Continuously expanding into Next.js, Docker, and AWS.

## EXPERIENCE

### MERN Stack Developer Intern | Mashup Stack Academy July 2025 – March 2026

- Completed a 6-month full-stack internship focused on MERN stack development in a professional environment.
- Built and deployed web applications using React.js, Node.js, Express.js, and MongoDB.
- Gained hands-on experience with REST API design, JWT authentication, and component-based UI architecture.
- Worked on projects involving payment gateway integration, role-based access control, and responsive design.
- Strengthened skills in Git version control, Postman API testing, and collaborative development workflows.

## TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design

**Backend:** Node.js, Express.js, REST API Development, JWT Authentication

**State Management:** React Hooks, Context API

**Database:** MongoDB

**Tools:** Git, GitHub, Postman, Version Control

**Currently Learning:** Next.js, Docker, AWS (EC2, S3), Vercel, Render

## PROJECTS

### Career Advisor AI | MERN Stack + Razorpay | GitHub

- Developed an AI-powered platform with aptitude quizzes across 3 career tracks and personalized roadmaps
- Implemented secure subscription system using Razorpay payment integration with role-based access control
- Built 10+ scalable REST APIs for user management, quiz logic, and AI-driven recommendations

### AI Resume Builder & Job Matcher | MERN Stack + OpenAI | GitHub

- Built full-stack app with live resume preview, ATS scoring system, and component-based React architecture
- Integrated OpenAI API for automated resume and cover letter generation reducing manual effort
- Designed 15+ JWT-secured REST APIs and a job application tracking system with state management

### Finance Tracker | MERN Stack | GitHub

- Built income and expense dashboard managing 5+ categories with real-time Recharts data visualization
- Implemented JWT authentication, recurring transaction system, and responsive design across all screen sizes

### StreamVault | OTT Platform | GitHub

- Developed Netflix-style platform with role-based authentication and protected route handling
- Built admin dashboard to manage 100+ content items with full CRUD operations

### Gadget Review Platform | MERN Stack | GitHub

- Built community platform with ratings, reviews, image uploads, and responsive design
- Designed scalable MongoDB schema for users, products, and reviews supporting concurrent operations

## EDUCATION

### B.Tech – Computer Science & Engineering

University College of Engineering, Kariavattom | 2021 – 2025

## CERTIFICATIONS

- Fullstack Web Developer – Node.js | Mashup Academy
- Python Bootcamp | IEEE Kerala
